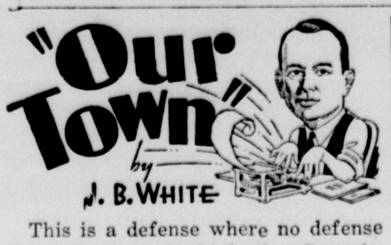
The Cameron Herald

VOLUME NUMBER 80. CAMERON, MILAM COUNTY, TEXAS, THURSDAY, MARCH 6, 1941. EIGHT PAGES TODAY NUMBER 47.



This is a defense where no defense is necessary. I think the Commissioners' Court on the whole has exercised good judgment as often as any other similar body in the state. I cannot see the necessity of an organized campaign to bring the Food Stamp Deal to Milam. The court has this matter under advisement and will surely see the merits of this plan. Over in Rockdale a mass meeting is being urged by The Reporter. Mass meetings are always in order if situations demand. Free assembly is still guaranteed us, but they sometimes smack a little too much of unwarranted pressure. It is right that such organizations as the Chamber of Commerce convey the opinions of business men generally. I have no doubt the Commissioners' Court will bring the Stamp Deal if in their judgment it is needed. This much should be said in defense of the Court. Hardly a session passes, or a week for that matter, that the Court is not called on to spend the tax payers money for something a few will benefit from. There is a limit beyond which they must not go. Under the New Deal local government has been on the defensive. Benefits obtained by fund matching have been enormous, yet, in the days that are to come, the bill must be paid. There have been hundreds of projects and few have come within the legal scope of the treasury of local government. I have no doubt that any citizen who so elects could raise the question and stop expenditures. I wonder what would happen if the Court were asked to take on a deal that would benefit the newspapers. But, there is merit to the stamp deal because it involves food to feed the wards of the government. Anything that turns business into legitimate channels makes for free trade as against life by tax money. I have every confidence in the Court here. The Court serves all sections of the county. There is no provincial discrimination as some would like to have you believe. Confidence in the Court will be justified. Coercion by any name is undersirable. I think the Food Stamp Deal will be brought to Milam without the whipping up of public sentiment or emphasizing the interests of any given division of our business life. The County Judge and the Four Commissioners are o. k.

Mission to Begin March 9 at St. Monica's Church

On Sunday, March 9th, Rev. James H. Dreis, C. S. S. C. Redemptorist Padre, of Okulgee, Okla., will begin a Mission at St. Monica's Catholic Church in Cameron which will last through Sunday, March 16th.

Rev. Dreis is not a new-comer to Cameron as he gave a Mission here five years ago and is a brother of Miss Josephine Dreis who recently moved from Cameron to San Antonio.

The object of the Mission is to afford an extraordinary opportunity for hearing the Word of God and to prepare the congregation for a Worthy Reception of the Sacraments. The Church enriches with special favors those who make the Mission well. We should all earnestly pray to God that not one member of the parish fail to profit by this season of grace. In the word of St. Paul, "We exhort you, that you receive not the grace of God in vain. For He saith: In an accpted time have I heard Thee, and on the day of Salvation have I helped thee. Behold now is the day of Salvation."

During the week of the Mission non-Catholics as well as Catholics are earnestly asked to attend the services and to hear the words of Rev. Dreis. His sermons are as follows:

Sunday 7: 30 p. m. "Is there a Hereafter-Salvation."

Monday 7:30 p. m. "Those queer Catholic Services-Indulgences and Blessing."

O. L. Kidd, Cameron attorney and member of the Association of Former Students of the University, paid the following tribute to the late J. M. Ralston at the Association banquet Tuesday night in Cameron:

He completed the course in education offered by the public schools of that state and came to Texas when a youth of 19, locating at Hempstead. For a time he engaged in teaching and then entered college at Cross Plains, Tennessee.

After prosecuting his studies in college, he returned to Texas and engaged in business. He established a drug store at Brenham and later one at Austin. Thereafter he chose the law as his life profession, sold his business enterprise and entered the Law School of the University of Texas, becoming a member of the first law class of that institution.

In 1884 he cast his lot among the people of Milam County, locating in

SEWER EXTENTION IS VOTED BY COUNCIL

Eleven thousand feet of sewer lines to cover fifteen blocks of the residence section in the Arnold, Fleming, Terrell Heights and Burns additions to the city of Cameron will be provided for as a result of an application made Tuesday night by the City Council for $15,000 in WPA funds to be supplemented by the city treasury.

Dan Tyson, city secretary and treasurer, told the Herald Wednesday of the application and said that Mayor Smith and the Aldermen Griffith, Terry, Horstmann, McDermott and Schiller have initiated this needed public improvement to benefits a large section of the city defined as above.

The homes in the additons mention will be able to connect with the main lines in the Green addition to the city.

Mr. Tyson said that there will be no hike in values nor will any raise in the tax rates be necessary for this improvement. The improvement will be paid for out of the sewer tax.

Mr. Tyson said that the city of Cameron has the lowest charge for sewer service in the state, only 25c per month whereas in various towns over the state the charge is from 50c to $3 per month.

Joyce Cox Begins Houston Law Practice

Joyce Cox, general attorney for the Santa Fe railroad in Chicago, has moved to Houston where he will engage in the private practice of civil law.

Mr. Cox was in Cameron Friday visiting with his parents, Mr. and Mrs. M. G. Cox. His family will remain here for several days pending living arrangements in Houston.

The law firm of which Mr. Cox is a member is Fountain, Cox & Sandlin in 2828 Gulf building, Houston.

Mr. and Mrs. Cox have three children, David in first grade, Phillip and Mary Joyce Cox, 2nd.

A graduate of Yoe High School, Cox attended law school at University of Texas. A brilliant student he advanced rapidly. After graduating from the University he went to Harvard where he obtained a degree in law. For several years he has been attorney for the Santa Fe in Chicago with compensation in keeping with the importance of the connection.

In surrendering his place with the railway company Mr. Cox makes a hard decision, but is coming back to Texas to rear his family and to make his mark under his own name in the private practice of law. The firm in Houston offers greater advantages than the Chicago connection, he said.

WILL STAY OUT OF WAR DECLARE GERMANS

Turkey will stay out of the war said an announcement by the German government Tuesday.

Diplomatic representatives from Berlin now in Turkey are putting on the presure at Ankara to get the Turks to desert Great Britain.

The Turkish Press criticised Germany for an attempt to be friendly. A note from Hitler to the Turks on Monday pledged Germany to protect Turkey against Russia.

Now the German diplomatic power has been turned on Turkey to get the Turks in the Axis.

Meanwhile British had broken diplomatic relations with Bulgaria. The British also broke with Rumania. The Germans were reported to be taking steps to protect the Rumanian oil fields from British attacks.

Yougoslavia was reported mobolizing her army reserve and calling others up for training.

British had done exactly nothing since the break with Rumania several weeks ago.

On the face of reports it appeared that Germany would succeed in getting Turkey away from England and also that Yugoslavia might enter the Axis.

Without a break Hitler has been able to subjugate 11 countries. If there was anything to indicate that Nazi diplomacy was to be defeated in the Balkans it was not in the news of Tuesday.

NEGRO FARMERS WILL STAGE MEAT SHOW HERE

The ninth annual Milam County meat show, co-sponsored by the Negro Councils of Agriculture and Home Demonstration, and the Chamber of Commerce of Cameron will be conducted in the Waller building on Saturday March 8th, according to C. L. Redus and E. A. Woods, negro county agents.

Entries of 16 classes will be exhibited with a special exhibit of smoked turkey. More than half of the negro farmers in Milam County used the "Better Method" of curing pork during 1940, while less than one-tenth of them used this method during 1932 when the first meat show was conducted in the county.

Beginning at 8 a. m. and lasting until 9:30 p. m. the public is invited to attend the show.

Another Underpass On Highways 36-69 At Milano Announced

An overpass on Highways 69 and 36 at Milano will be eliminated.

The Commssioners' Court here will co-operate with the Highway Department to secure necessary right of way. This action was taken several months ago.

Thus it will be seen that Milam County is to be required to pay for another underpass and due to the location the cost will be very heavy. This will give Milano two underpass right of ways and one near Gause.

Another underpass was built near Rogers for the benefit of a road in Bell county, but was charged to Milam county.

If the Highway Department will mprove Highways 77 and 36 the people here would have less complaint.

Ora Timmons of Milano transacted business in Cameron Wednesday.

H. M. Maddox of Milano was a business visitor here Wednesday.

L. E. KILLEN DIES IN TEMPLE HOSPITAL

Coach Wood After San Angelo Coaching Job; May Leave Here

Coach Carrol Wood is an applicant for the coaching job at San Angelo High School.

Recently Wood was called to Marshall to confer with school authorities there but it is believed he will not be interested in that place.

The coach said Wednesday he is an applicant for the San Angelo head coaching job and hopes to visit that city sometime within the next few days.

This is the first time, so far as The Herald knows, that Coach Wood has been an applicant for a coaching job since he came to Cameron. He was recently elected for 2 years here.

The San Angelo job would place Coach Wood in Class AA league, a promotion he well deserves. Friends here hope he may be successful in this application.

If Coach Wood left his place here football would lapse into its former state of ordinary importance in the school. With conditions as they are at present little can be expected in Cameron.

Burglars entered the Leader Dry Goods Store here late Tuesday night, it was announced here today by local officers.

Two leather jackets were also taken. Abe Fleischer, owner of the store, said as far as he could tell nothing else had been stolen.

STRUCK BY AUTOMOBILE GAUSE MAN DIES

Cleveland Buffington of Gause died in a local hospital at 11 p. m. Wednesday. Buffington was injured Sunday on the highway between Gause and Milano when he was struck by a passing automobile.

Details surrounding the accident were meager. Two versions were told the Herald, one of which said that a tire on Buffington's car blew out and when he got out to see about the tire a car sweeping down the highway, struck him. Another is that while Buffington was attempting to repair a puncture to a tire on his car another machine speeding down the road overturned from a tire explosing and struck him.

Buffington was bought to the Cameron hospital in a critical condition and died Wednesday at 11 p. m.

He is survived by his widow and a 6 month old baby, also his parents, Mr. and Mrs. George Buffington of Gause. Mrs. Buffington is the former Miss Mary Kilpatrick of Gause. Buffington was employed at the Willard Smith grocery in Gause.

GERMANY READY TO STRIKE AT GREECE

War in the Balkans, a thing dreaded by all nations concerned except England, seemed imminent Tuesday as all informed sources reported that the zero hour was at hand and all signs pointed to a show down.

Germany with an army touching the Turkish border and pointed at Greece now fighting for her life against Italy, was reported officially to have asked Turkey for a military base at Istanbul.

If the recent statement of the Turkish government that its representatives and the British headed by Anthony Eden, had reached an agreement, it true, there would be no logic in saying that the men discussed the neutrality of Turkey. What England wants is Turkey in the war. There was every indication that Turkey was preparing to enter the war because the best soliders of her vast army were being moved into battle position along the border of Bulgaria.

A message from Adolph Hitler to the President of Turkey was expected to be delivered Tuesday morning. The message was said to assure Turkey that her security is not threatened and that Germany has no intention of attacking Turkey.

Turkey was said to be massing her best troops along the frontier in Thrace.

In Berlin the Nazi government said that relations with Turkey are unsatisfactory. Tomorrow they will become worse and so in a few days the Germans will deliver an ultimatum to which Greece must submit or be wiped out.

In Italy the people have been told that the war is over for them. From now on the Germans will do the fighting. This may have been forecast in the speech by Mussolini when he told about the great power of Germany. It is a strange sort of situation. If the Rome government means what it says the war is over—for the Italians and from this time on the fighting will be done by Germany.

There was no British denial that a large expeditionary force had been landed in Saloniki.

BRITISH MAY MOVE INTO THE BALKANS

With German armies moving into Bulgaria and already at the Greek frontier; an ultimatum handed to the Yugoslavia by Hitler and British bombers slashing at the Rumanian oil fields, was a broad outline the picture in Southwestern Europe as what may be a momentous week in the war began on Monday.

Turkey has closed the Dardenelles to all shipping except vessels piloted by Turkish naval officers.

The Turks have approximately one million men under arms and ready to resist any attack on her borders of Thrace.

Hitler announced Sunday that nothing may now expect to stand in his way. The fascination of his advancing soldiers may fire his frenzy for more war.

Greece was said to realize that the British should have been let into Saloniki weeks ago. At that time Greece feared a German invasion if the British came to her aid. Now the Germans have marched in without regard to the fact that no British soldiers are in Greece.

It was believed the British may try to land an expeditionary force in the Balkans through Turkey if that country elects to go to war in defense of her zone of security.

In the first world war the Allies were able to attack Germany and Austria through the Balkans although Bulgaria was in the side of the Centeal powers and so was Turkey. The British captured Saloniki but were never able to take the Dardenelles.

In the background of the news were indications that Russia may not be pleased over the developments but it was regarded as almost certain that when the time comes for a show down Russia will be on the side of Germany.

Russia seem to be debating. If American can offer a better field for the operation of the Cominterm and Ogpu it is not at all likely she will line up with Germany. The spread of Bolshevism as a world revolution is in fact the foreign policy of the Societ.

After the war is over the Soviet will make their big bid for a world revolution.

The Comintern is very strong in America and so is the German Gestapo. All these facts are known to the Government of the United States.

British bombing planes were said to have bombed the oil fields in Rumania but this was unconfirmed. The British broke off diplomatic relations with Rumania more than a month ago but that was all. The British say that they will break relations with Bulgaria and may declare war.

As the news filtered in slowly Monday indications pointed to a startling week with perhaps Greece being forced to give in to Italy although she has won the war on the battle field.

Germany is now in possession of Italy and will soon be in possession of Yugoslavia and no doubt in time will over run Greece to get at bases on the Mediterranean to strike at the British.

Way "Build-up" Helps Will Interest Women

The cause of a woman's periodic suffering from headache, irritability, cramp-like pain, may be *functional dysmenorrhea* due to malnutrition, a condition that is often helped by CARDUI.

Principal way CARDUI helps is by stimulating appetite and the flow of gastric juices. Thus it may aid digestion; help build up a woman's strength, energy and nerve-force; so increase physical resistance to periodic discomfort.

It also helps reduce periodic distress for many who take it a few days before and during "the time." Your confidence in CARDUI is invited by its 50 years of popularity.

An Open Letter

To The Publisher

P. O. Box 84, Victoria, Texas,
February 20, 1941.

Editor J. B. White,
Cameron Herald,
Cameron, Texas.
Dear Editor White:

I have long been a silent admirer of your straight forward policy in presenting the problems of Cameron as they really are, and not as most people would like " to believe they are."

I have always maintaned that the backbone of national opinion doesn't lie in the metropolitan centers, but in the smaller centers like Cameron. The trouble liong here is that most of the smaller city editors cater only to the problems that are mote questions with is readers. However I am proud to say that you don't fit into this catagory.

It is my belief that the strength of a nation doesn't lie in its armies, but in the faith of the people for their type of government. As you pointed out in one of your editorials freedom of the press and speech are essential to the maintaining of free enterprises and our way of life. As long as editors of your high calibre control the smaller papers, which are free of graft and corrupt politics, public problems will be presented in a straight forward honest manner regardless of who or what they involve. As long as this continues our nation will continue to move forward and cannot remain stationary.

Enclosed is my blank check. Please fill in the correct amount for a years subscription to the Cameron Herald, and if possible the "Little Daily."

Thanking you, and looking forward to receiving my paper each week, I remain,

Sincerely yours,
Rodney M. Pollard.

YUGOSLAVIA APPEARS NEXT ON NAZIS LIST

Bulgaria became a member of the Rome-Berlin-Tokyo axis Saturday when the treaty was formally ratified in Vienna, capital of Austria, the first country to fall under German conquest.

In all Hitler has taken over 9 countries.

Bulgaria surrendered in a pompus ceremony attended by Hitler, Von Ribbethrop, Count Ciano for the Italians and a representative of the Japanese government.

The conquest of Bulgaria was Hitler's answer to the Anglo-Turkish conversations in Ankara, said the German press.

With the capitulation of Bulgaria it was agreed that the movement of German troops now would be a matter of only a few hours or days. Only one county now remains outside the German sphere in the Balkans and that is Yugoslavia.

Yugoslavia will be the next country to sign up and then Greece will be forced out and the next conquest will be Turkey. This seemed to be the conclusions of commentators and observers in the theatre of power politics.

There was some indication that Turkey might resist. What Russia may do is not clear and any effort to establish contact with Moscow with the view of ascertaining Stalin's attitude was unavailing.

Italy now has ceased as an independent power. Heads of the government have all been relieved of their responsibilities and the country is German.

A broadcast said that 50,000 German troops had reached Tripoli in Libbya and there was some indication the British would be given a fight by Germany in North Africa.

In the far east Japan had won another conquest and France was repoted in dispatches from Shanghai to have surrendered and will meet all demands made by Japan which call for cession of large areas of Indo-China.

Great Britain, still following the pattern of diplomacy in vogue for hundreds of years, was waiting for the conclusion of all formalities before breaking with Bulgaria. Reports that Britain would declare war on Bulgaria were not official.

Thus for the British have not bombed the Rumanian oil fields.

Thousands of German troops were on the march through Rumania and it was believed that the invasion of Bulgaria would soon be under way. The war, so far as the Balkans are concerned, appears to have ended. Turkey nor Britain are likely to interfere with Hitler's march.

With the ending of the crises a few days must elapse before Hitler produces another conquest.

The kind of scarfs to use was also demonstrated and many valuable ideas given to the club members.

Taken From Single Den Near Ben Arnild Twelve Rattle Snakes

Twelve rattle snakes were killed near Ben Arnold on Thurisday in a single den by H. E. Dodd and sons.

The Dodd family live on the M. G. Cox farm near Ben Arnold.

Thursday morning Mr. Dodd and sons, C. W., Durwood and J. T., with another boy, Morris Beasley, had an exciting time for more than an hour with the rattlers.

The largest rattler was 6 feet in length and a vicious fighter. More than 30 minutes were required to kill him. Mr. Dodd said that the big snake seemed to be guarding the entrance to the den and fought viciouly. He was as large as a man's leg, said Mr. Dodd. "He must have been 18 or 20 years old."

The boys were hunting with dogs and a rabbit was run into the den. As one of them stooped down to peer into hole the big rattler was not more than two feet away from his face.

The snakes were pulled out of the hole with wire hooks and killed. They ranged in ages from perhaps 20 years to one rattle and a button.

Two good mixers are better than one

THERE you sit, watching the long road ahead as it dips and rises.

Under your feet there's a quiet whispering, to let you know that all eight able Buick cylinders are happily on the job.

You're giving not a single thought to what's happening under that long bonnet nosing out in front, but here's what's going on:

Instead of the single, compromise-size carburetor you find on most cars, this Buick FIREBALL eight with Compound Carburetion* has *two* good mixers on the job.

A single one of them—the front one—keeps you rolling smoothly, easily, quietly, on the very minimum rationing of gasoline.

But the other carburetor is alert and ready for any sudden need. Just tramp down on that accelerator pedal—it goes into instant action, giving you *more* fuel and *more* power for *any* emergency purpose!

It's almost like having *two* engines—one to handle normal requirements thriftily, another to team up with the first for extra oomph and wallop when you want it.

That kind of teamwork pays.

And owners by the thousand will tell you *it's more economical too*—as much as 10% to 15% more economical.

If you haven't experienced what it feels like to have that under the bonnet of your automobile, better go have that Buick demonstration now.

*Standard on all Buick SUPER, CENTURY, ROADMASTER and LIMITED models, available at slight extra cost on all Buick SPECIAL models.

BUICK PRICES BEGIN AT *delivered at Flint, Mich. State tax, optional equipment and accessories—extra. Prices subject to change without notice.* $915 for the Business Coupe

PUNCHARD
(Continued from page 1)

Houston he was said to have been implicated in recent robberies in Baytown. The police in Houston called the Huntsville prison after they had looked into the negro's record.

Roy Baskin, attorney for Punchard, told the Herald Tuesday that he will file an appeal in the case. The motion had not been heard by Judge Graham Gillis in District Court up until noon Tuesday. When the negro is sentenced Sheriff White and a deputy will take him to Huntsville where he will resume his sentence on a conviction for burglary.

The negro was tried here under the habitual Criminal Statute and sentenced to life imprisonment. If he had been sentenced before he escaped he would have lost his right of appeal.

Punchard told officers that when he left Cameron on the night of his escape he went to Brady in West Texas and from there came back through Cameron and went to Houston and Baytown. Sheriff White said he had proof that Punchard stayed in Temple all night following his escape from jail here.

When Sheriff White was told of the arrest of Punchard he was at Hearne with Deputy C. C. Black and from that point they went to Houston reaching that City around midnight. Punchard was lodged in jail here at 4:30 a. m. Tuesday. He was handcuffed and placed on the back seat of a sedan and guarded by one of the officers as they sped him along the highway to the Milam County jail.

Punchard was born at Sumerville in Burleson county. He told officers the reason he did not attempt to escape altogether is because he knew he would be recaptured sooner or later.

Criminal District Attorney W. A. (Bill) Morrison obtained a conviction in District Court under the Habitual Criminal Statute.

When he was 15 years old the negro was sentenced to the reformatory from McCulloch County and has a long criminal record.

RALSTON

(continued from page 1)

Cameron where he engaged in the eron for half a century and until his retirement just a few years before he passed away on May 23, 1940.

In the practice of his professior Mr. Ralston was notably successful and enjoyed the confidence of a large clientele. As an attorney he was thorough rather than brilliant; safe and sound rather than ornate. This characteristic was exemplified, not only in his prepartion of pleadings and briefs, but in his personal appearances in the courts. In oral arguments, either to a court or a jury, he relied upon accurate reasoning rather than eloquence, and was not inclined to sacrifice substance for embellishment.

As a citizen Mr. Ralston was truly patriotic, as a man steadfast in his convictions, never yielding principle for expediency.

He was essentially companionable, as those who knew him may attest. He enjoyed his friends and loved ones, who in turn, appreciated him. In a letter to one of these, not long before his departure, he expressed a sentiment that he had cherished practice of his profession. He continued the practice of law in Camthrough life: "This world would not be a very happy place to live in without the love and friendships we enjoy, but with them, I would like to live in it forever." He was a man of broad sympathies. Particularly, was he kindly and even tender toward the underprivileged and toward those upon whom fate and fortune had frowned and those whom disappointment or distress had overtaken.

His standing as an attorney, his usefulness as a citizen and the high esteem in which he was held were attested by his repeated election to public office. Twice he was elected County Attorney of Milam County, twice Mayor of the City of Cameron, twice District Attorney of the District composed of Milam, Robertson and Brazos counties, and once Justice of the Peace of Precinct No. 1 of Milam County. His acceptance of the more lowly office of Justice of the Peace, after having served in higher offices, further attests his usefuness and his willingness to serve, whether in exalted or humble station. As a noteworthy feature in the career of George Washington is mentioned his serving as Road Overseer after he had filled the high office of President of the United States. At the time Mr. Ralston was summoned to his celestial abode he was president of the Milam County Bar Association and president of this, the Milam County Associaton of Ex-Students of the University of Texas.

Mr. Ralston embraced the tenets of the Christian religion and was a consecrated Chritian. In early life he united with the Baptist Church. For many years he served that institution as Deacon, as teacher in its Sunday School and as its Treasurer, and he was a devout member of its congregation until called to membership in the congregation of the Saints.

For a period of time covering full half a century he ministered at the bar of these temporal courts. Henceforth for the scope of eternity he will minister at the Bar of the Courts on High. May the ashes of the mortal form rest in peace, and may the departed spirit abide in the Elysian Fields reserved for the Blessed.

CHRISTIAN SCIENCE SERVICES

"Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 9.

The Golden Text is: "Beloved, now are we the sons of God, and it doth not yet appear what we shall be: but we know that, when he shall appear, we shall be like him; for we shall see him as he is" (I John 3:2.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "If any of you lack wisdom, let him ask of God, that giveth to all men liberally, and upbraideth not; and it shall be given him." (James 1:5.)

The Lesson-Sermon also includes the followng passage from the Christian Science textbook, "Sicence and Health with Key to the Scriptures," by Mary Baker Eddy: "Spirit imparts the understanding which uplifts consciousness and leads into all truth . . . This understanding is not intellectual, is not the result of scholarly attainments; it is the reality of all things brought to light. God's ideas reflect the immortal, unerring, and infinite" (page 505.)

ITALY NOW UNDER GERMAN DOMINATION

Italy has become a German protectorate.

The United States government today said it had information that Germany has taken over every branch of the Italian government and has even supplanted the police force of the country.

The recent speech of Benito Mussolini was nothing more nor less than a desperate effort to hold the Italian people in line.

The United States government has reason to believe that Italy has passed into control of Germany, said the statement from Washington today.

Germany has not anly taken control of the government of Italy but has also control of the industry of the country and with Heinrich Himler and his Gestapo on the ground, discipline will be rigid and brutal throughout the boot.

The British government today said that German troops in Africa have been routed while Berlin claimed that the Nazi were victorious in their first skirmish with British troops in Africa.

The United States was getting ready for any eventuality in the Far East and has greatly strengthened the air forces in the Philippines.

Great Britain had taken the offensive in the air war over Germany and Franch today.

The most encouraging statement of the day was issued from Berlin. The Nazi government announced that they had no intention of invading Bulgaria and that no German troops have yet crossed the frontier from the Danube.

If surface indications are reliable Germany is faced with a serious outlook because of the apparent collapse of Italy.

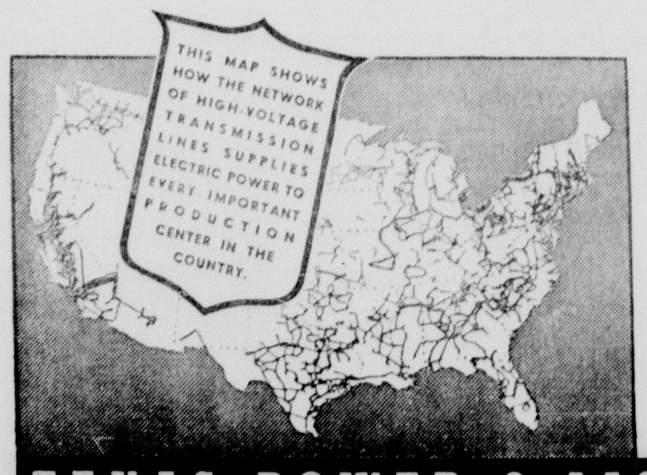
Adequate Reserves of Electric Power Available for National Defense Activities

The electric industry throughout the nation is already prepared to furnish all the power needs of national defense as well as the normal requirements of homes, stores and offices. More than 300,000 miles of electric power lines (of 11,000 volts and over), largely interconnected, form integrated systems which supply adequate power to every important production area in the nation.

Pioneering initiative and private capital have worked together to develop in America the most adequate and most dependable power supply in the world. Through the years the industry has increased its power plants and other facilities . . . always keeping ahead of the nation's requirements. For this reason the present national defense emergency finds this industry *ready in advance* for national defense activities.

This means that no government funds need be spent to provide additional power facilities; that appropriations can be used to buy vital defense materials . . . planes, tanks, guns, ships for the defense of our country, and food, clothing and supplies for the comfort of our boys in training.



THIS MAP SHOWS HOW THE NETWORK OF HIGH-VOLTAGE TRANSMISSION LINES SUPPLIES ELECTRIC POWER TO EVERY IMPORTANT PRODUCTION CENTER IN THE COUNTRY.

A Vigorous Pioneer is serving in National Defense

The Texas Power & Light Company is meeting every requirement for electric service in the area it serves. It is our belief that we can best serve our country in this emergency by going ahead as we have in the past . . . using the many resources at our Company's command . . . *providing for the needs of today and planning for the needs of tomorrow.*

GOING UP

to an all time high

Reader interest in The Herald is going up!

Indications were that an all time high might be reached before many days have passed.

There are many reasons why the people want The Herald. One of these reasons is that the news is printed regardless of influences that often sack the moral fibre of the average little town newspaper.

Since 1860 The Herald has played its part in the community. It has been giving the kind of newspaper service that makes for reader interest and the large subscription list.

The Herald now has the largest circulation of any other newspaper in Cameron or Milam county and has maintained this leadership for years.

Ten years ago competition in Cameron put the subscription rate below ONE DOLLAR. The Herald has mantained a 50c rate and still does. Enroll today.
